

TECHNICAL ORDER 1-1-8 (EXCERPT)

SYNTHETIC DEMO CONTENT — not a real Technical Order. Illustrative only.

3-4.2 Primer Selection. For exterior surface corrosion treatment performed by Corrosion Control and Sheet Metal activities, non-chromate primer MIL-PRF-85582 Class N is authorized as a substitute for MIL-PRF-23377 Class C2 (chromated) where corrosion severity codes permit.

3-4.3 All other activities: chromated primer remains required pending engineering disposition.

Note. MIL-PRF-23377 Class C2 contains hexavalent chromium, Cr(VI), CAS 18540-29-9.
MIL-PRF-85582 Class N is chromate-free.
